# OFFICIAL COMMUNIQUE – NOVEMBER 4, 2026

The Front pour la Refondation de la Nation (FRN) strongly condemns the continued massacres of civilians by the coalition forces of the Kinshasa regime, mainly the FARDC, FDLR, Mai-Mai militias, mercenaries, and elements of Burundi's National Defence Force (FNDB). These attacks have targeted several densely populated areas across the liberated territories.

The FRN hereby makes it clear to the Congolese people and the international community that it has neither the intention nor any interest in advancing towards Uvira. The allegations and insinuations being deliberately spread by the Kinshasa regime are unfounded. They form part of an apparent strategy of political diversion and public manipulation, intended to distract attention from the massacres perpetrated against civilian populations and its continued military offensives against the liberated territories.

For more than two months, the coalition forces of the Kinshasa regime have continued to launch military operations against FRN positions and, increasingly, against densely populated civilian areas. These operations have involved substantial military resources, including combat drones, fighter jets, heavy artillery, long-range missiles and ground forces.

The attacks have been perpetrated in the following axes and localities:

- High Plateaus Axis: Minembwe, Point Zéro, Mukoko, Rugezi, Kipimo, Kuwamabuye, Kuwihene, Kabanja and Minembwe Centre;
- Kaziba Axis: Mitimbili and Munanira;
- Ruzizi Plain Axis: Katogota and Lubarika;
- Mwenga Axis: Kasika;
- Shabunda Axis;
- Bunyakiri Axis;
- Kadasomwa Axis: Kalongi, Kitendebwa and Kukiduveri;
- Lumbishi Axis: Cyabombo, Remeka and Kasovo;

- Masisi and Walikale Axes: Katoyi, Bihiri, Kazinga, Bulewusa, Lusamambo, Kateku, Kanune, Kalonge, Kinyumba, Peti and Mizenze (Pinga);
- Lubero Axis: Kandole, Mbyanzi, Kitchanga and Pitakongo.

The FRN remains committed to the Doha peace process and to reaching a lasting political resolution to the crisis in the DRC. However, it will not remain passive amid these continued attacks. The FRN reserves the right to take all necessary measures to safeguard liberated areas and protect civilian populations from any threat, regardless of its origin.

Goma, November 4, 2026
